

My wife and I (age 62) currently listen to K-Love radio on several frequencies in the Cincinnati area at home and in our cars and we are encouraged by the music and messages we receive from listening.

We feel that the community would lose a vital link in the communication of God's Love if they were replaced by a LPFM broadcaster that was not of the high caliber of programming provided by K-Love.

K-Love provides local updates of happenings that benefit us and others along with national news.

Thank you for taking the time to read this and considering that not all change is for the better.
